District III League and North Puget Sound League

Partner for Older Age League Play for 2011

FEDERAL WAY, WA – June 13, 2011 – The District III League and the North Puget Sound League (NPSL) representing Washington Youth Soccer’s Districts I, II and III are excited to announce plans to continue strengthening their partnership with their 2011 league offerings for the older youth select soccer players of Western Washington. The collaboration addresses a joint benefit of strong, multi-division “like or comparable” competitive play per age for older youth soccer players. Through this partnership, the offerings are open to select teams that have traditionally played in the District III League and the NPSL.

This fall, older boys U16-U18 teams from both the NPSL and District III Leagues will once again be placed into competitive brackets that will be administered by the District III League. The older boys league will commence in early September and conclude in December with the aim of realizing sufficient depth of competitive play for participating teams.

On the girls side, District III and the NPSL leagues are partnering with options since the combination of fall girls high school soccer and club soccer create varying interest levels as to when to participate in club soccer league play. Older girls U15-U18 teams from both leagues wishing to play this winter will be placed into the Older Girls Winter League administered by the NPSL, commencing in early January and concluding in March prior to Washington Youth Soccer’s Challenge Cup. District III will continue to host its league for older girls teams desiring to continue playing club soccer in the fall, commencing in early September and concluding in December prior to Washington Youth Soccer’s Founders Cup.

2011 Fall League registration for older boys and older girls teams from the District III League and the NPSL is now open and will close on July 31st. 2011 Winter League registration for older girls teams for the NPSL will close November 1st.

About the District III and North Puget Sound Leagues

District III and the North Puget Sound League (NPSL) are Washington Youth Soccer-sanctioned, competitive youth soccer leagues. Together the leagues cover Washington Youth Soccer’s Districts I, II and III and twenty youth soccer associations comprising over 78,000 youth soccer players.
